and is not their sex. The last thing that crim. In the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name and cheese-make preference in the United States since 1870, while the name is the name of such as to provoke sympathy for criminals, if the thiodegical schools of which there were The continuance of punishment experience has 142 in 1880, were fewer in number. Every le proved to be an essential element in its efficiency, both as a preventive of crims and as a means of refermation for all classes of criminals. SPULIC BENEFACTORS: which all agree were taught in common to all the students, with one professor to represent and teach the detrines of each denomination it is a trice saying that one main is of bit and teach the described support. We that so matter how hearned, or wealthy or in, fluential he may be, the work of the world goes on wishout him. When great men are in their ir me and at their posts, educating the public from such colleges. And it is loubtless true that the efficiency spirit is not comparable. or me and at their posts, educating the public from such co leges. And it is fould be sentiment, directing the destining of government, the ding was tarmics under their control maintained in them. The colleges where or managing the details of giant higheres corpustions, the quastion is often suggested, how is would be possible to dispense with the services of Harvard Nate quad Columbia. At these went thinkers and workers because at the course of the servers their possible to dispense with the source of the course of the servers the course of the servers their possible to dispense with the services their artendance at prayer meetings is only fifty. In to this or that increased in the course of the first thinkers and workers have attendance at prayer meetings is only fitly. In to boardon their pure, and, seriously as their the last decade only one hast of every twenty-line may be felt for a time, some one class is seven of its six dents went into the observed semito be in the services of no single interested that the services of no single interest in the development of motion of its stidents went into the ological semination take their places. Thus experience demonstrates that the services of no single interior. In the alasses at Yale there is all yale there is all in the success of the single interior. In the success of the single interior in a circle of they or sixty agraduates there is a
